Maharaja Ganga Singh Dental College,
Sri Ganganagar, Rajasthan
Rajasthan University of Health Sciences
(RUHS)
March 2022

CERTIFICATIONS

- Basic Life Support (BLS)
September 2025

TEACHING & ACADEMIC EXPERIENCE

- Conducted Oral Surgery classes for BDS undergraduate students
- Provided clinical and theoretical teaching to BDS juniors
- Participated in journal club presentations and postgraduate seminars
- Involved in academic discussions and evidence-based learning

RESEARCH

- Dissertation / Thesis**
“Comparison of the efficacy of buccal infiltration versus conventional buccal and palatal injection of lignocaine hydrochloride for maxillary third molar removal.”
Area of research: Local anaesthesia and pain management in Oral & Maxillofacial Surgery.

PROFESSIONAL PROFILE

MDS-qualified Oral & Maxillofacial Surgeon with comprehensive postgraduate clinical and surgical training, with extensive exposure to dentoalveolar surgery, maxillofacial trauma, odontogenic infections and oral pathology. Performed 100+ surgical disimpactions and coronectomies of impacted third molars, along with significant clinical exposure to biopsies, cyst enucleation, management of space infections and maxillofacial trauma. Experienced in surgical treatment planning, local anaesthesia, flap design, suturing, tooth sectioning, bone guttering and interpretation of OPG, CBCT and CT imaging. Also involved in undergraduate teaching and academic activities during postgraduate training.

CLINICAL & SURGICAL EXPERIENCE

DENTOALVEOLAR SURGERY

- 100+ surgical disimpactions and coronectomies of impacted third molars
- 20+ canine and premolar disimpactions
- Extensive experience in surgical extraction of impacted teeth
- Flap design, bone guttering and tooth sectioning
- Surgical suturing and postoperative wound management

ORAL PATHOLOGY & MINOR ORAL SURGERY

- 50+ oral biopsy procedures
- 20+ cyst enucleation procedures
- Apicoectomy / periradicular surgical procedures
- Clinical assessment, surgical planning and postoperative management of oral lesions

MAXILLOFACIAL TRAUMA & INFECTIONS

- 50+ maxillofacial trauma cases
- Clinical assessment and treatment planning of facial trauma
- Exposure to fracture management and ORIF procedures
- 50+ cases of odontogenic space infections
- Incision and drainage and management of odontogenic infections

IMPLANT SURGERY

- Assisted in 20+ implant placement procedures
- Performed 5 implant placement procedures
- Experience in implant surgical planning and perioperative management

CLINICAL & SURGICAL SKILLS

- Local anaesthesia administration
- Surgical extraction and disimpaction
- Coronectomy
- Flap design and reflection
- Tooth sectioning and bone guttering
- Surgical suturing and wound closure
- Incision and drainage
- Biopsy procedures
- Cyst enucleation
- Apicoectomy / periradicular surgery
- Clinical assessment of maxillofacial trauma
- Fracture assessment and treatment planning
- Interpretation of OPG, CBCT and CT
- Preoperative and postoperative patient management
- Management of surgical and dental emergencies
