PROFILE

MDS Prosthodontist experienced in comprehensive prosthodontic diagnosis and treatment planning, fixed and removable prosthodontics, complete dentures, implant prosthodontics, and full-mouth rehabilitation. Trained in contemporary digital and implant workflows, with clinical exposure to immediate implant placement, socket-shield techniques, implant provisionalization, aesthetic dentistry, and maxillofacial prosthodontics.

WORK EXPERIENCE

Postgraduate Resident | Department of Prosthodontics

OCT 2023 - SEP 2026

Jaipur Dental College, Jaipur

- Comprehensive Prosthodontic Care: Diagnosis, treatment planning, clinical execution, prosthesis delivery, follow-up, and patient-centred care.
- Fixed & Removable Prosthodontics: Complete dentures, removable/cast partial dentures, overdentures, immediate dentures, crowns, bridges, veneers, and anterior aesthetic restorations.
- Full-Mouth Rehabilitation: Comprehensive occlusal analysis, treatment sequencing, vertical dimension management, and rehabilitation of complex prosthodontic cases.
- Implant Prosthodontics: Managed implant-supported prosthodontic cases, including implant treatment planning, implant-level impressions, prosthetic component selection, provisionalization, occlusal management, and definitive restorations.
- Implant & Surgical Procedures: Performed immediate implant placement, socket-shield technique, GBR, sinus augmentation, ridge split, osseodensification, and PRF procedures.
- Aesthetic, Digital & Maxillofacial Prosthodontics: Smile analysis, diagnostic wax-ups, mock-ups, digital smile planning, veneers, shade selection, intraoral scanning, digital impressions, CAD/CAM workflows, and surgical/definitive obturators.
- Laboratory & Prosthetic Management: Laboratory prescriptions and communication, shade communication, framework/ceramic evaluation, try-ins, occlusal adjustment, prosthesis delivery, maintenance, complication management, and multidisciplinary treatment planning.
